Subject Re: Thursday's Teleconference

Steve,

I spoke with the Neutron Energy guy. His name is Mike Newman, 303-531-0470. Feel free to call. Thanks again.

Brian,

I was hoping to get the revised Task 5 report to EPA before our telecon, but I realize that that is not going to happen. So in order to let EPA know what we've been doing, I've attached a file that contains some of the major changes that we've made to the report since the last time we talked. I figure we can talk about these. I'm still in my final edit process, so any suggestions that you and Reid give can still be incorporated. Also, before I send it to EPA, I'd like to have our tech editor look it over, because my English is not always so gooder.

Talk to you at 11,
Steve
